

# Get a comfortable advantage.

Hazards come in many forms, and you don't want to discover any of them unprepared.

MSA's Advantage® 200 Half-Mask Respirators and Advantage® 1000 Full Face Respirators provide the protection you need and the comfort you want. The same filter cartridges can be used with both models, offering even greater flexibility and value.

Contact your local MSA distributor to order the Advantage 200 or 1000 Respirator and instantly raise your comfort level around hazards.

For more information, or to receive your FREE Advantage 200 and 1000 brochures, call us at 1-800-MSA-2222.
