MSA POLICE LINE

- Lightweight outer carriers allow the use of MSA Concealable Armor panels in an externally worn vest
- Adjustable shoulder harnesses loop to rear panel with pull-down adjustment

- Side closure via overlapping hook-and-loop ensures front-over-back panel position
- Internal cummerbund-style elastic closure provides stability and comfort
- Front and rear hook-and-loop fields and badge holder provides for identification placement

MSA ForceField Lightweight Outer Carriers are available in three versions:

- The **OPC-100 (Outer Patrol Carrier)**, a general-duty external carrier with multiple sewn-in utility pockets and pouches. Large utility pockets include elastic to hold utility items. Includes handcuff pouch, flashlight loop, and small utility pockets.
- The **EMS (Emergency Medical Services) Carrier**, similar to the OPC-100 Carrier but provides larger utility pockets, reflective trim and color variations to accommodate emergency medical services and other specialty applications.
- The **Delta LTC (Lightweight Tactical Carrier)**, a similar externally worn carrier with front and back pockets accommodating rifle plate sizes of up to 10" x 12". Also included is an integrated webbed MOLLE-style grid.

Carrier accessory converts existing body armor panels into lightweight, externally worn vest. Durable, low-profile, nylon outer shell offers comfort and stability. Carrier assembly can also accommodate MSA body armor panels in an MSA Bravo-style carrier.

Delta LTC

OPC-100
