

APTURA™ LT12 Self-Retracting Lanyard (SRL)

Features & Benefits

FEATURE	BENEFIT
A durable, engineered thermoplastic housing	Decreases weight to increase user acceptance
Rugged, impact-absorbing bumpers	Increases durability
A field-replaceable lifeline option.	In the event that the webbing should become damaged, this option allows a user to replace the web lifeline in the field without sending the unit back to the manufacturer. The APTURA LT12 SRL is the first SRL on the market to offer this feature. This greatly reduces cost of ownership and customer down time.
A Lightweight design starting at 2.4 pounds	The very light weight increases user acceptance and can be easily attached to the back D-Ring of a harness to be used in a wide variety of applications
Lifeline length options from 6' to 12'	Allows the user to get the exact length they need for their specific application.
A 400 pound working capacity	Eliminates the need to custom order a product for a worker exceeding 310 pounds
A constant lock-up rate	Prevents the erratic, "jerky" lock-up (like a seat belt) found on some types of personal fall limiters, and increases user acceptance.
No annual factory re-certification required	The high-quality, engineered design not only reduces the cost of ownership, but it also eliminates down time.
Integral load indicator	Alerts the user that the unit has been involved in a fall and that the SRL must be removed from service
Label Pack with cover label	All labels are located in the same area to make it easier to find important user information. The cover label protects the label pack from environmental damage, increasing product life.
An innovative design offers a cool, sporty appearance	Increases user acceptance of product
Assemble-to-Order process	Allows you to order exactly the options you want, and only the options you want
SRL Connector Options	Allows for the unit to be used in a wide variety of applications. It also allows the user to choose the type of connector they are most comfortable with, increasing user acceptance
Harness Connector Options	Allows for the unit to be used in a wide variety of applications. It also allows the user to choose the type of connector they are most comfortable with, increasing user acceptance
Price Options	Allows the SRL to be sold into virtually any market
The APTURA LT12 Self-Retracting Lanyard	The most versatile and unique SRL available today
