

Features & Benefits for MSA's Defender[®] Visor used with Modern-Style Cairns[®] Fire Helmets

<p>Simple, effective design: integral, retractable, close-fitting visor that attaches to helmet. An MSA exclusive!</p>	<ul style="list-style-type: none"> ✦ Just raise the visor to stow it within your helmet; lower the visor when you need eye protection. ✦ Never lose or misplace your eye protection again. ✦ It's ready when you need it.
<p>Eye protection is stowed inside the helmet.</p>	<ul style="list-style-type: none"> ✦ Increased safety compliance, as the eyewear is convenient and ready to use when the need arises. ✦ Lower maintenance costs, because the eyewear does not melt on the outside of the helmet and needs to be replaced less often. ✦ Cleaner eyewear, as it is not left exposed on the outside of the helmet.
<p>Sleek, attractive construction with secure attachment</p>	<ul style="list-style-type: none"> ✦ Promotes fast, easy raising and lowering, even with gloved hands. ✦ No worries about slippage. It's securely stowed—until YOU pull it down.
<p>High-quality eye protection that meets standards for protective eyewear</p>	<ul style="list-style-type: none"> ✦ Standard clear and amber Tuffshield visors are compliant with NFPA 1971. ✦ All Defender Visors meet ANSI Z87.1+ impact requirements. ✦ The optically correct lens eliminates peripheral distortion.
<p>Visor quickly disconnects when required</p>	<ul style="list-style-type: none"> ✦ Enables fast lens change during field use or during refurbishment. ✦ Requires no tools.
<p>Lowest-profile helmet available with low-profile, internal eye protection</p>	<ul style="list-style-type: none"> ✦ No external eyewear to "catch" on anything when in a pitch-black fire scene. ✦ External obstacles are least likely to entangle this helmet-eyewear combo. ✦ Good for tight spaces, confined spaces, low ceilings.
<p>Use with the 660C Metro™, Invader 664™, and Commando HP3® helmets</p>	<ul style="list-style-type: none"> ✦ Choice of different helmets for different needs and user preferences. ✦ Helmets are suitable for firefighting, EMS, and/or search & rescue tasks. ✦ Good when wearer or organization is responsible for both Fire & Rescue.
<p>No outer eyewear</p>	<ul style="list-style-type: none"> ✦ Nothing hangs off the outside of the helmet to throw the weight of the helmet off balance and make it harder for you to work.
<p>Defender can be ordered through Modern Helmets ATO Matrix or as user-upgrade kit</p>	<ul style="list-style-type: none"> ✦ Current modern-helmet wearers can easily attach a Defender Visor when they replace the impact cap on their helmet. ✦ It's an easy add-on option when buying a new modern-style helmet.
