FOR IMMEDIATE RELEASE

New 360-R13 Rescue Helmet from Cairns®

PITTSBURGH, PA, April 2007 — Cairns' new Rescue 360R-13 Helmet is the lightest-weight rescue helmet yet. This rugged helmet provides the protection required for NFPA certification and the comfort needed for all day use. Durable construction offers protection against impact and penetration hazards. No-brim design allows easier access to smaller spaces. EMS and rescue helmets from Cairns are the lightest and lowest-profile helmets available, designed for vehicle extrication and confined space rescue.
