

Sound Control™ Hearing Protection

[In a world of noise, MSA Sound Control products whisper “Safety.”]

Guarding workers against the daily hazards of noise is of paramount concern in countless industries. The challenge is to balance personal attenuation devices with comfort. A worker who takes off hearing protection to rub sore ears is a worker at risk. MSA provides a wide selection of hearing protection designed for the most demanding applications, offers protection with a variety of Noise Reduction Ratings, and does it with the benefits of style and comfort.

Approvals

All hearing protection tested according to ANSI S3.19-1974 standards at an independent NVLAP testing facility.

Sound Blocker™ 26

SlimPro™ Plus

Apex 30™

Economuff™

Apex 30™

Apex 30™ Ear Muff

- Ideal for intense noise applications such as airfields and power plants
- Padded headband and super-soft ear cushions guarantee all-day comfort
- Lightweight
- Compact and foldable
