

# Power Builder™ Battery Charger

**Microprocessor-controlled battery charging system uses constant current and constant potential charging with no adjustment required for up to 60 charging stations.**

## The most diverse, accommodating, and universal cap lamp battery charger ever.

The new MSA PowerBuilder Charger for cap lamp batteries offers extended use of the new 16-ampere-hour Luminator™ Plus Battery *and* still has enough charging capability to charge for the next work shift. The PowerBuilder Charger works with all MSA batteries (*old or new*) as well as competitive lead-acid batteries. Charging time depends upon the state of battery discharge; an MSA Ultralight® Cap Lamp without remote adapter that has been used for 10 hours will charge completely in less than 10 hours.

10002436	Power Builder Single-Unit, AC
10002439	Power Builder 10-Unit
10002462	Circuit Board Module, Replacement
10002464	Transformer, Replacement
10002465	Leg Assembly Kit (up to 60-station) (2 required)

## Features and benefits

- LEDs indicate state of battery charge; automatic sleep mode when battery is fully charged
- 10-unit chargers can be internally set for 110- or 220-volt operation, useable as tabletop, wallmounted, or stacked on leg assembly
- Leg assembly kit enables stacking of up to six of the 10-unit chargers for 60 total stations, 30 on each rack side (*back-to-back*)
