*FOR IMMEDIATE RELEASE*

## ***MSA Ultima® X<sup>3</sup> Monitor for Ammonia Detection***

PITTSBURGH, February 2007 —

The advanced MSA Chillgard® NH<sub>3</sub> sensor can be used on an MSA Ultima X Series Gas Monitor with X<sup>3</sup> technology to provide fast, reliable detection of ammonia and up to two other gases on one transmitter with modbus output. The Chillgard NH<sub>3</sub> sensor provides 0-1,000 parts-per-million (ppm) detection of ammonia down to -40 °C.
