For Immediate Release

MSA Releases Gas Detection Bulletin for HVAC Industry

The MSA Instrument Division has published a four-page full-color brochure detailing its product offerings for the HVAC Industry. Making it easy to select the right gas detection product, the brochure features a chart showing the major gases commonly present in a variety of HVAC applications and the appropriate MSA gas detection product for each application.

MSA designs and manufactures a complete line of world-class gas detection products for a variety of applications within the HVAC Industry. With a focus on providing complete monitoring solutions, MSA is an industry leader with products such as Chillgard® Monitors for detection of refrigerant gases, Z Gard™ Monitors for parking garages and various commercial applications, Toxgard® II Monitors for a variety of toxic and combustible compounds, and AirOx® Indoor Air Quality Monitors.

For a copy of the **MSA Gas Detection for the HVAC Industry** bulletin, request literature #07-2089 by dialing 1-800-MSA-4678, or contact your nearest MSA sales representative. To learn about MSA and our other high-quality products, visit our web site at:
