FOR IMMEDIATE RELEASE

MSA Chillgard® RT Remote Relay Module Receives CE Approval

PITTSBURGH, May 2006 — The MSA Chillgard RT Refrigerant Monitor's remote relay module has been granted CE approval. Configurable for up to eight remote sampling areas, the Chillgard RT Monitor detects refrigerant gas down to 1 ppm and can detect either a specific refrigerant or a group of refrigerants. The remote relay module provides up to three discreet alarm relays for each sample point.
