FOR IMMEDIATE RELEASE

MSA Chillgard® RT Refrigerant Monitor Is Versatile Detection Solution

PITTSBURGH, September 2006 — The MSA Chillgard RT Refrigerant Monitor detects virtually any refrigerant gas. It can be calibrated for one refrigerant, or programmed to detect up to six different refrigerants. The Chillgard RT Monitor detects down to 1 ppm and is configurable for up to eight remote sampling areas. Many other options are available on the Chillgard Rt to meet your refrigerant monitoring needs.
