MSA Recycles Model R, Model RP and Econo-Cal Calibration Cylinders

Before any cylinder can be returned for recycling:

1. Remove valves from all cylinders.
2. Return all cylinders in the specially marked shipping box.

To remove a valve from a cylinder:

Use valve removing tool (part number 711229) for removing the valve in the red Model R series cylinder.

Use valve removing tool (part number 711228) for removing the valve in the Model RP and Econo-Cal cylinder series. This tool removes the valve in the:

- tan, steel cylinder.
- aluminum, 58-liter Model RP cylinder.
- aluminum, 34-liter Econo-Cal cylinder.

Follow the instructions supplied with each tool.

To return a cylinder:

All empty cylinders must be returned in the special shipping box (part number 711227). This box is addressed with the appropriate shipping information and location:

MSA Recycling Center
c/o ARC-Butler County

Cylinders are not refilled; they are salvaged for scrap.

ARC-Butler County is the Association for Retarded Citizens. ARC is a nonprofit organization that salvages and properly disposes of all metals. All proceeds from the sale of the metals benefit ARC-Butler County.

Thank you for your support.
