

New technology in an old friend:

It does more than you would imagine.

Expect versatility from MSA's new Orion^{plus} IR Detector.

- IR options for CO₂, 0-100% LEL or 0-100% volume combustible gas
- Poison-resistant catalytic sensor
- Wide range of e-chem sensors, including Cl₂ and NH₃
- Interchangeable batteries (NiMH or alkaline)
- Standard integral pump and data-logging
