For Immediate Release

MSA Introduces the Sirius™ Multigas Detector with PID

MSA Instrument Division announces the release of the newest member of its Stellar® Series Portable Instrument product line: the Sirius Multigas Detector. Combining two instruments into one, the Sirius Multigas Detector features a PID in a multigas unit. With the Sirius Multigas Detector, users can conveniently and confidently monitor for hundreds of potentially dangerous vapors and chemicals.

In addition to incredible performance, simplicity, durability and the commitment to quality that users have come to expect from MSA for nearly a century, the Sirius Multigas Detector also features:

- Tremendous flexibility: simultaneously monitors for volatile organic compounds and combustible, toxic and oxygen-deficient atmospheres.
- Reliable PID performance: MSA's proprietary patent-pending PID sensor design integrated into our proven multigas detector design (as featured in the MSA Orion® and Solaris™ Detectors).

(more)

- Easy-to-use, user-friendly software allows users to focus on their tasks at hand.
- Superior PID sensor design reduces maintenance time and cost.
- Loud, attention-grabbing alarm system clearly warns users of a hazardous situation.
- Interchangeable lithium-ion and alkaline battery packs keep instruments running 24 hours-a-day, 7 days-a-week.
- Easy calibration and compatibility with MSA's TIM[®] Total Instrument Manager System increases user safety by easily ensuring proper sensor performance.
- Long-term storage kit allows users to confidently handle emergency situations.

The Sirius Multigas Detector is ideal for use in a wide variety of applications, including Homeland Security, First Responder, Fire Service, Hazmat Response, Petrochemical, Chemical, Aviation, Marine, Utilities and General Industry.

For more information on the **Sirius Multigas Detector**, request Bulletin # **0803-10**, by dialing 1-800-MSA-2222, or contact your nearest MSA value-added reseller. To learn about MSA and our other high quality products, visit our web site at:
