FOR IMMEDIATE RELEASE

MSA ALTAIR™ Pro CO Detector for Fire Service is Rugged, Reliable Monitoring Solution

PITTSBURGH, June 2006 — The MSA ALTAIR Pro Single-Gas Detector for the Fire Service accurately measures carbon monoxide (CO) gas concentrations and displays this information on a large, clear, backlit LCD. Featuring a replaceable sensor and battery, the detector also has superior dust and water protection, excellent impact resistance, great RFI performance, and an extremely effective alarm system.
