MSA ALTAIR™ Pro Detector is Rugged, Reliable Monitoring Solution

PITTSBURGH, June 2006 — The MSA ALTAIR Pro Single-Gas Detector with replaceable sensor and battery measures toxic gas concentrations or percent oxygen, displaying data on a large, clear, backlit LCD. Featuring superior dust and water protection, the ALTAIR Pro Detector has excellent impact resistance, great RFI performance, and an effective alarm system. Adjustable alarm set points and data-logging are offered on all units.
