

## ***New Product Announcement***

*FOR IMMEDIATE RELEASE*

### ***MSA ALTAIR™ Pro CO Detector for Steel Mills is Rugged, Reliable Monitoring Solution***

PITTSBURGH, June 2006 — MSA's ALTAIR Pro Single-Gas Detector for Steel Mills with replaceable sensor and battery accurately measures carbon monoxide (CO) concentrations and displays data on a large, clear, backlit LCD. The detector features a hydrogen-resistant CO sensor and software that prevents disabling of alarms by users. The ALTAIR Pro Detector also has superior dust and water protection, and excellent impact resistance.
