

Reliability. Ease of Use. Durability.

The PULSAR™+ Single-Gas Detector. Universal Appeal That's a Plus for You.

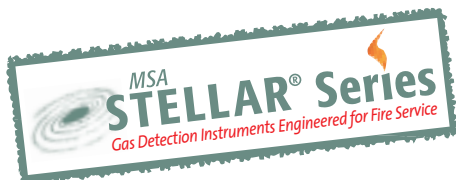

[An astronomical list of features. Innovative design. Small size. Low price.]

The new PULSAR+ Single-Gas Detector sets the highest standard for detection of CO by offering an array of features, including a gas-concentration display and a replaceable sensor and battery. It's durable, reliable and easy to use. Best of all, it's made by MSA, the industry leader with more than 85 years of experience.

The PULSAR+ Single-Gas Detector features:

- Large, easy-to-read display
- Autocalibration, and no accessories needed for gas-response testing and calibration
- MSA's replaceable, patented, leak-proof, stainless-steel Button™ Sensors
- Replaceable, long-life lithium battery
- Excellent water and dust resistance; IP54-rated
- Best-in-class triple alarm system. Piercing audio, ultra-bright quadruple visual and optional vibrating alarms
- Lifetime warranty
