

VIDEO CAPTURE SYSTEM FOR EVOLUTION® 5000-SERIES TICs

- ➔ New and EXCLUSIVE from MSA!
- ➔ Records whatever “plays” across your TIC screen

- ➔ Fast and easy to retrofit to your TIC
- ➔ Up to 2 hours of recording
- ➔ View incident later on computer

To meet your increasing needs for documentation and training, MSA's new Video Capture System for any Evolution 5000-Series TIC gives you fast, easy video recording of the imager's original screen.

Now, you can record up to 2 hours of video of what your Evolution 5000-Series TIC sees!

Later, incident command can see everything that happened on scene.

This small, easy-to-use, stand-alone unit works with all Evolution 5000-Series TICs, receiving the video signal through the SMA connector in the left side of the TIC housing.

MSA
The Safety Company

Small, easy-to-use, stand-alone video device records screen action of any Evolution 5000-Series TIC for up to 2 hours. Connects in seconds. Provides downloadable video clips of fireground for recordkeeping and training.

Take a few seconds to add this feature to your MSA TIC

- Connect to the SMA port
- Strap the unit to the housing
- Turn on the TIC
- Start recording the action

Operation details

- No wireless transmissions, so recording stays strong
- mpeg 1 format
- Standard RS-MMC card 512-MB
- Standard flash memory card reader
- Download video clips to computer
- Store, view and follow-up for documentation
- Provides complete overview of the environment & incident
- Same high durable housing as Evolution transmitter
 - Protection IP67 Ingress
 - NFPA 1981:2002 edition—
simulated heat and flame tests
 - MIL-STD-810 loose cargo transport vibration requirement
- Same Li-Ion rechargeable battery & charger as Evolution 5000-Series TICs
