

# 24/7 WMD Detection.

Always standing guard.

## **Two choices.**

*For subway areas, office buildings, airports, HVAC systems, and public arenas.*

*Combining proven SAW and electrochemical sensor technologies.*

*Highly selective to specific chemical agents, reducing false alarms.*

*Automatic self-diagnostics & system verification testing.*

### **SAFESITE® Sentry Detector**

- Identifies selected TICs by specific gas.
- Simultaneously detects specific TICs, VOCs, combustible gas and oxygen, as well as nerve (G), blister (H), and gamma radiation.
- Options include wireless or ethernet access, and GPS location.

### **CW Sentry™ Detector**

- Identifies selected TICs by class.
- Simultaneously detects selected TICs, nerve (G), blister (H), blood, and choking agents.
- Options include ethernet or fiber optic access.
