

Two Styles to Choose From

NEW! Bump Caps

[The bump cap is designed for applications in workplaces such as meat packing, food processing, pest control, meter reading, and automotive repair. It protects the scalp by reducing exposure to abrasions and lacerations caused by minor bumps to the head.

MSA offers two types of bump caps: the standard plastic cap and a “soft” ballpark-style cap with hard plastic liner. The key word is “minor” bumps. Bump caps are appropriate ONLY for work situations which do NOT require ANSI-compliant head protection. Contact MSA if ANSI-compliant head protection is needed]

■ Plastic Bump Cap

Features & Benefits

- Plastic cap: Provides scalp covering to reduce exposure to abrasions and lacerations due to minor bumps
- Molded from high-density polyethylene: Durable
- Perforated sides: Allows cross ventilation for better air circulation
- Adjustable sizing 6½ to 8: Accommodates different head sizes, easy to use
- Cool and lightweight: Comfortable
- Smooth surface: Easy to clean
- No replacement parts

Applications

- Designed for work in areas such as pest control, meter reading, food/beverage processing, meat packing, auto repair.
