Discontinuation of ICM TXR and ICM TX PASS Devices

The ICM TXR Integrated PASS, offered as an option on our Airhawk II SCBA platform, is discontinued effective immediately. Discontinuation is necessary due to the obsolescence of a supplied key component used in the manufacturing of the radio transmitter for the integrated PASS device. The ICM TX will continue to be offered until August 1, 2018, at which time will be discontinued as well.

The following Airhawk II ATO configuration options are no longer be available for order.

- ATO-A2H – High Pressure
Gauge / Integrated PASS Options: D, E, J and K
- ATO -A2L – Low Pressure
Gauge / Integrated PASS Options: D, E, J and K

Replacement ICM TXR Kit part numbers that are no longer available for order:

- 10063247, 10063248, 10063271, 10063272, 10063275, 10063276

Recognizing there is a large install base of ICM TX and ICM TXR customers, MSA will continue to support these products as parts are available. ICM TX and ICM TXR repairs will continue until August 1st, 2021 OR as long as repair parts are available.

Sincerely,

A handwritten signature in black ink, appearing to read "Niklas R. Blymiller".
