ArcSafe® Full Body Harness Series

PITTSBURGH, Jun 2015 – Please be aware that MSA Fall Protection will be officially discontinuing the ArcSafe® Full Body Harness Series. The ArcSafe line has long been a high-performing, specialty arc flash harness option, but has been made redundant by our new arc flash line of harnesses under the popular Workman® & EVOTECH® brands. These harness families are currently MSA's most popular brands of full body harnesses and offer numerous exciting features that provide excellent safety, comfort, performance, and affordability. A limited number of ArcSafe harnesses are still available, so proponents of the brand are encouraged to move quickly before stock is depleted.

As a result, the ArcSafe family will be eliminated as of December 31st, 2015 in North America.

Please see bulletin 2300-109-MC for details of the cross-over information for this product phase-out.

Best Regards,
