Discontinuation Notice

After many years of service, MSA and General Monitors are announcing the discontinuation of several General Monitors controllers effective 30 June 2021. While we understand that this may cause inconveniences for some customers, we offer our assurance that MSA and General Monitors' customers can continue to make use of the many remaining General Monitors and MSA controller solutions.

The following products are affected by this discontinuation:

- MC600 – Multi-Channel Controller
- 580A – Dual-Channel Combustible Gas Monitor
- DC110 – Eight Channel Combustible Readout/Relay Module
- 2280A – Four Channel H2S Gas Monitor
- DT210 – Eight Channel H2S Readout/Relay Module
- 2602A – Zero Two Series Control Module for H2S Applications
- FL802 – Multi-Channel Flame Detection Readout/Relay Display Module
- MD002 – Monitored Driver Output Module
- ZN002A – Three Zone Control Module
- PS002 – Power Supply

Each product affected by discontinuation will continue to be supported with service and spare parts for a period of 5 years, or until critical components are exhausted.
