MSA HeatGard

- The HeatGard is a V Gard cap which retains its protective properties in high heat applications, such as radiant heat in furnace work.
- Available in silver grey with a FastTrac Liner.
- Maximum heat exposure 190° - maximum ambient heat temperature 100°.
- HeatGard caps meet the applicable requirements for a Type 1 helmet as outlined in SANS 1397:2003.

DESCRIPTION	CODE
HeatGard Complete With FastTrac Liner	40420GA
HeatGard Shell Only	40450GA

ACCESSORIES

Logo's For Industrial Head Protection

- Help boost company morale and image while preventing theft with custom logo hard hats.
- All MSA hard hats can be customized with your company logo.
- These high quality logos won't fade or crack.
- Logo can be done in up to *6 colours and on front, back and sides of any of our hardhats.

* 4 colours are standard, 5 and 6 colours are specials.

Chinstraps

To protect employees working below, you must provide chin straps for the protective helmets worn by employees working at higher elevations, whether in an aerial lift or at the edge of a pit. The chin straps are designed to prevent the hard hats from being bumped off the employees' heads.

Noise Foe Mark V Earmuffs

V Gard caps are available with fitted hearing protection attached. The Noise Foe Mark V earmuffs fitted to hard hat, have a NRR of 23dB and are available in grey or orange.

Reflective Tape

Reflective tape is available on all configurations of head protection as listed above. Reflective tape consists of 4 strips located on the front, back and both sides of the hard hat. Available in silver or lime or yellow colours.

Sunshield

Fits over most caps and hats to add extra protection to the neck and face against the sun.

OTHER HEAD PROTECTION

MSA Bumpmaster

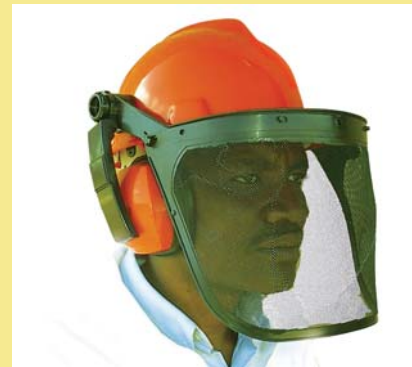

- The MSA Bumpmaster is a bump cap designed for applications where there may be risk of a minor bump or scrape to the head.
- Design is based around a conventional baseball cap with a head protecting ABS skullcap fitted inside.
- A foam disc head spacer provides additional protection.
- The low profile design of the cap also makes it suitable for use with earmuffs while the design does not interfere with the wearing of goggles.
- A branding option for corporate logos and identities is available in either printed or embroidered techniques.
- Available in black, blue, green, orange, red and white.

DESCRIPTION	CODE
Bumpmaster	40233
Plastic Inner First Base Cap	40235

MSA Forester System For Head, Hearing And Face Protection

- The Forester system of head, hearing and face protection is perfect for use with landscaping and general garden maintenance, while working with noisy lawn mowers and edge trimmers.
- Features a SANS approved lightweight V Gard cap, SABS approved Noise Foe Mark V earmuffs and nylon mesh visor.

DESCRIPTION	CODE
Forester System	42217

V GARD LINER / SUSPENSION SYSTEMS

SnugFit Liner

- The 4 point SnugFit liner/ suspension system is an economical version that provides protection when used in combination with a V Gard cap or hat shell.
- Foam sweatband.
- Adjustable head band.
- Height adjustability.
