

STOKOLAN®

Care cream for hands and face. Time-tested qualities for heavily-stressed skin.

Description

STOKOLAN® is a silicone-free, skin care cream which is easy to apply, is swiftly absorbed and does not leave any unpleasant or annoying oily film. STOKOLAN® has a proven track record in helping to prevent occupational skin diseases and in supporting their treatment. STOKOLAN® contributes to reducing skin irritations and it soothes the skin. By simultaneously providing moisture and oils, STOKOLAN® enhances the natural regeneration of the skin, and used regularly, it keeps the skin smooth and supple. This helps to stop the skin becoming rough or dry - which is the cause of many occupational diseases - and it maintains the natural protective function of the skin.

Area of Application

For the care of heavily-stressed skin. Suitable for all types of skin.

Instructions for Use

Wash and dry the skin thoroughly before each application of STOKOLAN®. Then carefully rub STOKOLAN® on to the areas of skin at risk, including between the fingers and on the fingernails. STOKOLAN® should always be used before any lengthy breaks and after finishing work. STOKOLAN® is suitable for facial use as well.

Product Description

White, silicone-free cream of the emulsion type oil-in-water (O/W). STOKOLAN® is available in perfumed and perfume-free versions.

Features and Benefits

Product Features	Benefits
well-balanced, care and absorption properties, coupled with a high level of consumer acceptance	▶ suitable for all types of skin
