

# MSA Paraclete® Modular Pouches

MSA Paraclete's line of accessories ensures flexibility at team, individual, and mission-specific levels. Our modular pockets and pouches provide a patented attachment system that negates the need for clips, snaps, plastic tie-downs, and cordage. The attachment device is permanently affixed to the equipment assembly, keeping it from becoming lost or

otherwise separated from the pocket, pouch, or holster. This system will not rust or become unserviceable, even within the most extreme environmental conditions and will maintain flexibility in frigid climates. No other tactical modular attachment system in the world today can compare with this system's simplicity, strength, and flexibility.

## Magazine Pouch Double M16/M4

ADP019

- ◆ Holds two individual M16/M4 magazines
- ◆ 1-inch spacer inside pocket keeps magazines secure

## Proper Use of the Attachment System

### Step 1:

Insert pouch attachment straps through the webbing on the vest.

### Step 2:

Insert the pouch attachment straps back through the first row of webbing on the pouch.

### Step 3:

Pull straps up to tighten pouch on vest and then insert pouch attachment straps into the next row of webbing on the vest.

### Step 4:

Repeat steps one and two until all rows of webbing have been properly weaved.

### Step 5:

Insert pouch attachment straps into the opening at the bottom of the pouch.

### Step 6:

Pouch is properly attached.
