FOR IMMEDIATE RELEASE

New Breathing Air Systems Available from MSA

Pittsburgh, Pa., April 2010 – Four new MSA air system products offer easy to use, portable solutions for completing a breathing air system. Components include an Industrial Air Cart, and a Technical Rescue Cart for the unique rescue tools of Fire Service and HazMat teams. Two Breathing Air Distribution Systems—a filtration box, and a point of attachment box—are portable grade-d filtration systems providing breathing air for up to four air-line respirators.
