FOR IMMEDIATE RELEASE

The Altair[®] 5 Multigas Detector is ideal choice for confined space entry

Pittsburgh, Pa., September 2008— **The Altair[®] 5 Multigas Detector** is the first portable 5-gas detector with MotionAlert™ and InstantAlert™ feature. MotionAlert feature when enabled, activates a “man down” alarm if no motion is detected for 30 seconds. InstantAlert feature allowing users to manually activate an audible alarm to alert those around them to potentially dangerous situations. Other great features include optional, high-resolution color display screen with logo customization, more than 17 preprogrammed languages, Galaxy[®] System-compatibility, and standard vibrating alarm and data logging. The Altair 5 Multigas Detector is MSA Link™ Software ready.
