MSA Paraclete Tactical Vests Body Armor for Law Enforcement

Proven under fire

Just as we were going to press, we heard from a grateful survivor of an explosion in Iraq. He had personally chosen to wear an MSA Paraclete Releasable Modular Vest (RMV) instead of a more conventional ballistic vest.

When the armored vehicle he was riding in blew up, he and his driver were badly hurt. As the medics got him out and prepared to cut his fragment-imbedded vest open, he said, "Just pull the cord." They pulled it, the vest fell open, and the medics quickly began their work.

This survivor was told that the 10 minutes saved by the quick release of his Paraclete vest were truly the difference between life and death.

His Paraclete RMV vest saved his life —twice.

The original Releasable Assault Vest (RAV) can be removed instantly, via patented single-point release feature. With full Molle-style grid webbing, sewn-on drag strap, integrated drink tube & communication channels, & zip-off back panel. Plus full modular system of add-on pouches & accessories. Complies with NIJ Standard-0101.04, 2005 interim requirements.

MSA Paraclete Releasable Modular Vest

The Releasable Modular Vest (RMV) with patented release feature was designed for specialized military applications and is now available for your tactical teams. Activating the release feature allows the armor to be removed immediately for quick escape or administration of medical care. Law enforcement personnel benefit from the following features:

- Patented single-point release feature can be mounted on either side of the vest.
- Full Molle-style grid webbing compatible with our pockets, and military issue Molle / Spear pockets.
- The drag strap is sewn the full length of the vest. Fully adjustable and secured Internal and External cummerbunds the external cummerbund is secured.
- Integrated drink tube and communication channels located on each shoulder.
- The zip-off back panel allows the user to easily change the configuration of the back of the vest.
- Hook & loop closure allows rapid access to the internal armor plate pockets and the soft armor package.

• 10" x 12" rifle plate pockets

- Built-in side plate pockets for 6" X 6" hard plates.
- Mil. Spec. materials
- Paraclete's armor was certified and is fully in compliance with NIJ Standard-0101.04.

MSA Paraclete Modular Vest Light

The Modular Vest Light (MVL) is designed for the professional that wants the lightest weight vest carrier possible, yet still offers unsurpassed quality and reliability.

Modular Pouches and Accessories

The MSA Paraclete line of pockets ensures that you will have flexibility at the team, individual, and mission—specific level. Our modular pockets and pouches includes a patented attachment system that negates the need for clips, snaps, plastic tie downs, and cordage. The attachment device is permanently affixed to the equipment assembly, so it cannot be lost or otherwise separated from the pocket, pouch, or holster.

This system will not rust or become unserviceable even under the most extreme environmental conditions, and it maintains its flexibility in frigid climates. It's as easy to use as simple basket-weaving. No other tactical modular attachment system in the world today can compare with its simplicity, durability, and flexibility.

Standard features on the above models:

Drag strap, MOLLE webbing on front and back, 1000 Denier Cordura® outer shell, 400 Denier Pack Cloth inner lining for comfort, compatible with all Soft Armor Accessories.

MSA POLICE LINE

Other Top MSA Products for Tactical Teams

Millennium[®] CBRN Gas Mask

The first APR to receive NIOSH certification as "compliant against CBRN." It is a Hycar (rubber) version of the military gas mask that combines high performance, customized fit, comfort, and cost efficiency.

BlackHawk[™] Tactical SCBA

Combines MSA SCBA's finest features with special modifications to eliminate reflections and audible sounds that would compromise concealment. With mask-mounted regulator, sized facepieces, choice of cylinders, and air refill and air-line options.

Tactical Body Armor

ForceField Tango: Latest ballistic technology in modular vest that's protective, versatile, and comfortable.

Ballistic Helmet

ForceField ACH (Advanced Combat Helmet): The world's most advanced ballistic protection, plus innovative retention and suspension system. Lowprofile design reduces risk of interference in target acquisition, ensures compatibility with NVGs, gas masks, and communication devices.

MICH[™] Communication System

Lightweight, comfortable, easy to use and reliable. Unobtrusive microphone/ sound transmission system interfaces with radio transceivers and intercom systems.

Supreme Pro Hearing Protection

Provides optimum protection with high amplification and natural sound reproduction without "chopping". AUX input for connecting radio, etc., and watertight battery compartment. Both earmuffs are shaped to suit both righthanded and left-handed shots. (NRR 18dB)

Thermal Trac[™] Thermal Imager

A proven handheld camera-type tool with a sensor that reacts to infrared energy and displays visible images of elusive or hidden individuals, heat sources, etc., on a 3.5" screen. Easily deployable from a belt tether, this thermal imager provides 1-button operation and immediate results. With many outstanding features, from tough, durable housing to best-inclass image quality and a 2X digital zoom.

MSA Responder™ PAPR

A belt-mounted Powered Air-Purifying Respirator with choice of 2 proven tightfitting facepieces, each in 3 sizes. The motor/blower provides constant air flow of a minimum 115 lpm to the facepiece via the breathing tube.

Anthron Descent Device System

The Anthron Descent Controller is a manually operated descent device. It is most commonly used for suspended positioning, self-evacuation, or rescue operations. Device can be installed/ removed at any point on rope. Working load of 300 lbs (136 kg).

Solaris® Multigas Detector

Easy-to-use portable instrument for detecting the presence of O_2 , H_2S , CO and combustible gas. Superior display features simultaneous gas concentration display, backlighting for easy reading and alphanumeric message bar. Durable case with rubberized armor provides superior protection against liquid and dust ingress (IP 65 rated).

Protecting you is the business of MSA.

MSA has protected America's protectors since 1914, when Mine Safety Appliances was incorporated to improve mine rescue and, with Thomas Edison, invent a flameless miner's lamp.

Making breathing apparatus for World War I soldiers soon followed.

Our respiratory protection, particularly gas masks, has been worn by millions of soldiers in war after war, until the present day, when technologically advanced, comfortable, and extremely effective gas masks designed by MSA are still the No. 1 choice of U.S. armed forces.

Headquartered in Pittsburgh, Pa., MSA is the largest company in the world devoted solely to worker safety. Besides body armor and ballistic helmets, we produce complete lines of respiratory protection, gas detecting & monitoring instruments, and head protection, plus thermal imaging cameras, fall protection & rescue equipment, communication equipment, and eye, face, & hearing protection. With annual sales of over \$800 million, MSA encompasses a network of more than 30 international affiliates and over 4400 employees who design, manufacture, market, and sell hundreds of safety products.

MSA has a history of protecting the protectorsbefore, during, and after-emergencies. Today's needs for specialized kinds of protection are challenged and met by our excellent, state-of-theart research and engineering capabilities. Continuous innovations and cutting-edge advantages enhance ease of use and reliability, and MSA's products assure you of the safest available systems, more successful tactical results, and economical solutions.

On September 7, 2006, MSA acquired Paraclete Armor and Equipment, Inc., of St. Pauls, N.C., a rapidly growing innovator and developer of advanced ballistic body armor used by military personnel, including Special Forces. Paraclete's corporate mission, goals, and products merge well with MSA's, making this perfect union.

MSA Paraclete's products have been Proven Under Fire in Afghanistan and Irag, and we lead the industry in high-quality protective equipment and tactical gear systems, painstakingly customdesigned to meet the critical needs of military and law enforcement users.
