Gravity® Full Body Harness Series

PITTSBURGH, May 2015 – Please be aware that MSA Fall Protection will be officially discontinuing some of the Gravity® Full Body Harness Series. The Gravity line has long been a high-performing, economy harness option, but has been made redundant by our more popular lines of harnesses such as Workman®, TechnaCurv® & EVOTECH®. These harness families are currently MSA's most popular brands of full body harnesses and offer numerous exciting features that provide excellent safety, comfort, performance, and affordability. A limited number of Gravity harnesses are still available, so proponents of the brand are encouraged to move quickly before stock is depleted.

As a result, select Gravity harness families will be eliminated as of December 31st, 2015, globally.

Please see supplement bulletin 2300-105-MC for details of the cross-over information for this product phase-out.

Best Regards,
