## Lynx® Rescuer & Lynx Hoist

*PITTSBURGH, Jul 2015* – Please be aware that MSA Fall Protection will be officially discontinuing the Lynx Rescuer & Lynx Hoist family of product. The Lynx line of products has long been a high-performing confined space solution option, but has been made redundant by our new line of Workman® Rescuer & Workman Winch products. The Workman line of confined space entry products are a more cost effective option for customers which include new & exciting features that provide excellent safety, performance, and affordability. Additionally, the MSA Dynevac® II SRL will still be available for purchase as an alternative option in both the 50ft & 95ft lengths. A limited number of Lynx products are still available, so proponents of the brand are encouraged to move quickly before stock is depleted.

As a result, the Lynx Rescuer & Lynx hoist will be eliminated as of December 31<sup>st</sup>, 2015 in North America.

Please see supplement bulletin 2300-112-MC for details of the cross-over information for this product phase-out.

Best Regards,
