

ACH-ARC

Advanced Combat Helmet Accessory Rail Connector

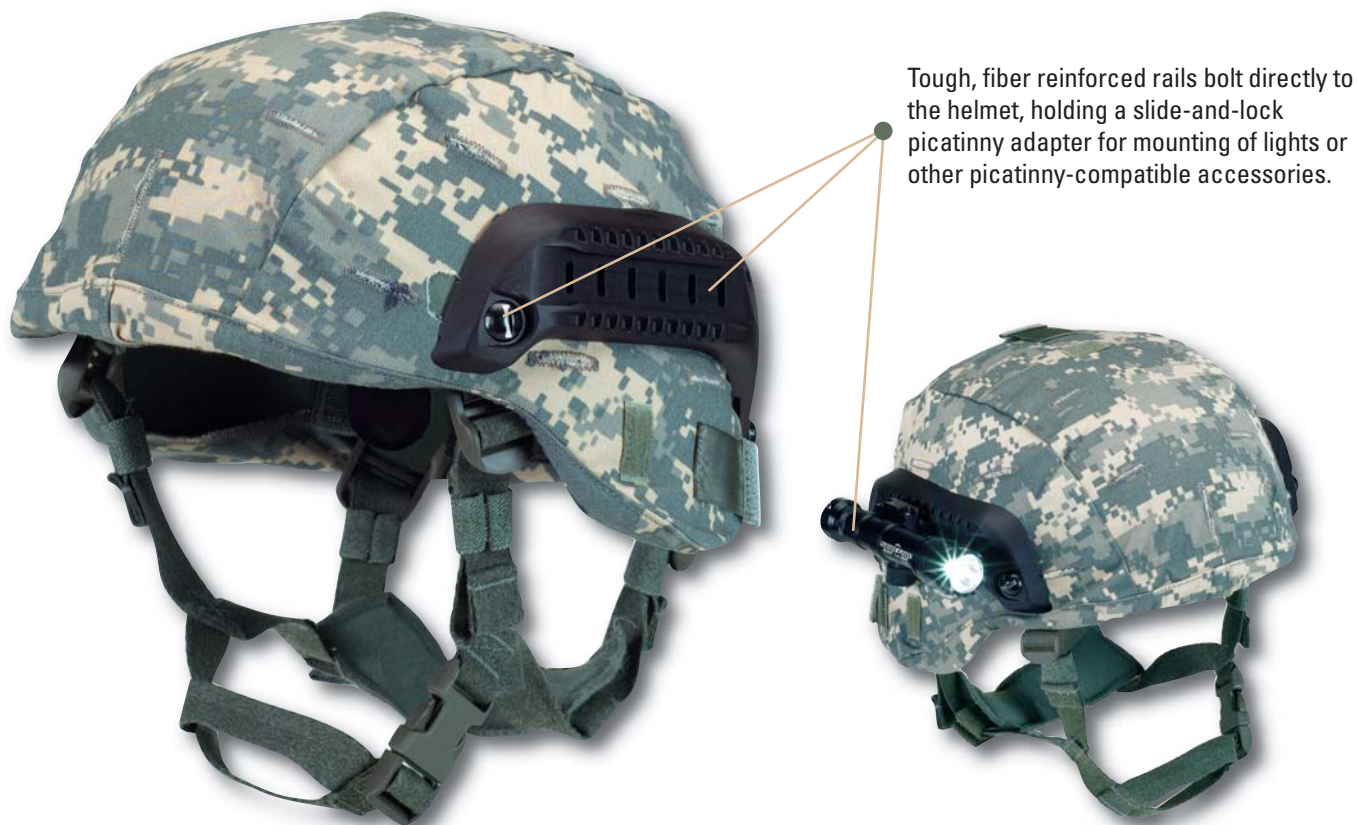

Direct-mount accessory rail connector fits MSA MICH®, ACH, and TC 2000 Series Combat Helmets.

The MSA ACH-ARC provides accessory direct mount for ACH-style ballistic helmets. The ACH-ARC, designed and engineered for military, law enforcement, and tactical use, is the only combat helmet accessory rail connector currently on the market. This exclusive product offers a platform for current and future combat helmet accessories.

Features and benefits

- Universal picatinny adapter mounts many accessories
- Low-profile mount allows clearance with minimal snag hazard
- Lightweight addition does not impede mobility
- Picatinny adapter locks automatically on rail and can be slot tightened
- Multiple off-the-shelf accessories available
- Fits sizes medium to XL

Rails and accessories are secured during combat travel or rough handling, yet the ACH-ARC's design incorporates a dynamic breakaway feature to help prevent head and neck injury when exposed to extreme torque with no permanent damage to the unit.

Tough, fiber reinforced rails bolt directly to the helmet, holding a slide-and-lock picatinny adapter for mounting of lights or other picatinny-compatible accessories.

Ordering Information

Part No.	Description
10083754	ACH-ARC Kit contains: • two rail connectors • two picatinny adapters • bolt set • retrofit instructions

Our military forces trust MSA's Advanced Combat Helmet (ACH), battle-tested and adopted as standard issue for U.S. Army troops deploying to Iraq/Afghanistan front lines.
